## Bowling Greens Temporarily Closed

Dear Members & Guests,

The club is continually reviewing government advice in relation to Coronavirus along with its internal operations as to when it is practical for the Bowling Greens to be available for use. We are currently in discussions as to how and when this can happen and will update all members accordingly through the website, email and social media channels.

We appreciate your patience in the matter. Please be assured the clubs Board and Management are being active in this space behind the scenes.
